

## **Faculty Moderators for First-Year Scholar Research Presentations**

### First-Year Presentations

First-Year Scholars will display posters that represent ideas for a project, preliminary work, or a project well underway and describe how they plan to develop this work moving forward. The presentations will take place during two consecutive sessions (Session 1 from 5:00 PM to 5:45 PM and Session 2 from 5:45 PM – 6:30 PM). During the poster session, faculty reviewers will visit each of the posters within their theme (2-4 posters per theme), engage in discussion with the presenting Scholar about their work and provide direct feedback. We will email you with the time and list of poster presenters for your theme in advance.
